 <p>Cvent User Enablement for System Administrators</p>	In this session, you will learn strategies for rolling out Cvent to a group of users. You will leave the session with the beginnings of a rollout plan to be adapted with colleagues. Topics will include: user management, Cvent best practices, training tips, governance, and accessing Cvent support resources. We will focus primarily on rollouts for your Event program.	<ul style="list-style-type: none"> • System administrators, training leads, project managers, and others who are involved with rolling out Cvent to additional teams, departments, regions, or across their entire organization. 	<ul style="list-style-type: none"> • Laptop • Event Management Log In • SMM License not required 	• \$200		• NO
 <p>Introduction to Strategic Meetings Management</p>	You understand the value of upgrading your meetings management program from notebooks and spreadsheets to a comprehensive online solution. But, if you think internal stakeholders will resist the move, don't understand the need for it, or question its usefulness, the session is for you. We'll break the big picture down to its individual components and show you how to adopt a strategic program in manageable pieces, rather than trying to roll out the entire solution. We'll also share ways you can overcome objections and tips on change management—so you can effectively “sell” your strategy internally.	<ul style="list-style-type: none"> • Mature Event registration or sourcing clients looking to promote the business value of meetings and events internally through streamlined workflow and automation, Ideal audience has not started an SMM program with policy or technology. 	<ul style="list-style-type: none"> • Laptop • Cvent Event Management login credentials with access to Meetings Management Module 	• \$200	• NO	• NO
